Diego Medardo Saavedra García

CONTACT

PROFESSIONAL SUMMARY

Master's in Computer Science (UTPL). MSc Cybersecurity in progress (UCM). 10+ years in full-stack development, 6+ as university instructor. Specialized in React, Node.js, Python, pentesting, reverse engineering, and PBL curriculum design.

MY PRACTICE

Independent security and software practice: authorized application auditing, product development, and technical training. 13 continuous years of teaching across six institutions, 22 published own courses, 134+ active certifications, and 400+ public repositories.

Services

- **FullStack Development** — Production-grade web and mobile applications with solid architecture, tests, and documentation. React, Next.js, Flutter, Node.js, Python, PostgreSQL. Formats: Per project, Hourly, Part-time. Rate: $25-50/hora
- **Security Audit** — Web and mobile application pentesting. OWASP Top 10 vulnerability identification, CVSS-scored reports, and remediation recommendations. Formats: Per project, Monthly retainer. Rate: $500-3000/proyecto
- **Technical Consulting** — Fractional CTO: software architecture, code review, team mentoring, and strategic technical decision-making. Formats: Part-time, Hourly, Retainer. Rate: $20-40/hora
- **Training & Courses** — Custom courses in Python, Ethical Hacking, Cybersecurity, and software development. Thirteen continuous years of teaching since 2013 across six institutions, including ESPE, UIDE and ABACOM. Formats: Hourly, Per course, Workshop. Rate: $30-60/hora

Own Tools

- **course-of-cybersecurity** — Complete published cybersecurity course book: 42 hours, 5 units, 40+ challenges, 10+ labs and 7 quizzes. Ships with a full instructor resource pack: teacher guide, student manual, evaluation rubrics, accreditation plan and Docker deployment manual. — github.com/statick88/course-of-cybersecurity
- **cyber-guardians** — AI pedagogical mediator platform that applies the Socratic method without ever revealing the answer. Offers four-level scaffolding (explicit, guided, implicit, withdrawn) grounded in Vygotsky's Zone of Proximal Development, plus a metacognition panel. — github.com/statick88/cyber-guardians
- **desarrollo-software-seguro** — Secure software development material published as open material, and the only repository in this set with a star on GitHub. — github.com/statick88/desarrollo-software-seguro
- **Course_of_python** — Own Python course of 11 modules with 70+ practical challenges, published as open material. — github.com/statick88/Course_of_python
- **MindLedger** — Multi-tenant clinic and accounting management system with medical-grade encryption. Tauri v2 (Rust) + React + SQLCipher. Clean Architecture, Repository pattern, SQLCipher migrations, interactive sample data, dark theme. — github.com/statick88/MindLedger
- **jarvis-os** — Python service layer. — github.com/statick88/jarvis-os

Own Training

- 22 published courses
- 200+ verified teaching hours
- 92+ students (average 93.4/100)
- 6 institutions taught at

Authorized Security Engagements

- **Oct 2026 — E-commerce with a 3D client (name withheld under a confidentiality agreement)**: Authorized production pentest, with a signed authorization letter and a 2-day window. 109 subdomains inventoried, a matrix of 15 verified CVEs, 6 adversary chains, and a remediation plan
- **Jul 2026 — Web application with scheduling management**: Security test over functional findings, with the client's prior authorization. Findings attached and prioritized with severity and remediation
- **Sep 2025 — Web project (name withheld under a confidentiality agreement)**: Prior authorization letter, with scope and window agreed before execution. Execution within the signed scope, without touching third-party assets

WORK EXPERIENCE

Software Designer and Architect (own project) at Meeting Planner AI System

2026-01-01 Present

- Architected a modular transcription and analysis system with clean architecture, integrating Whisper/MLX for speech-to-text, LLMs (Groq/xAI) for contextual analysis and summarisation, and Docker Compose for reproducible environments.
- Cut 80% of the time spent on manual transcription, processing hours of audiovisual content every week without human intervention.
- Improved educational accessibility with precise, searchable transcripts, on an extensible design that added analysis services without restructuring the core.

Stack: Python, FastAPI, React 19, Zustand, Whisper/MLX, LLM (Groq, xAI), Docker Compose, SDD

Instructor, Facilitator and Curriculum Designer at ABACOM

https://abacom.edu.ec/

2021-12-01 Present

- Designed and taught 8 courses on Ethical Hacking, Python, Flutter, MicroPython, Linux servers and secure software, covering 200+ verified teaching hours and 92+ students.
- Achieved a 93.4/100 average evaluation with the 2026 Python cohort, publishing the material as 8 open Quarto books on GitHub Pages.
- Built the instructor pack for every course (teaching guide, student manual, assessment rubrics and accreditation plan) with ABP methodology, formative assessment and academic management.

Stack: Ethical Hacking, Python, Flutter, R, Linux, Quarto, ABP, OWASP

Bootcamp Facilitator (Django + React) at Codings Academy

https://codingsacademy.com

2024-02-01 - 2024-12-31

- Facilitated full-stack web development bootcamps with Django and React, using rubric-based assessment and individual progress tracking for every student.
- Guided teams through the full development cycle (design, implementation, testing and deployment) of their final projects.

Stack: Django, React, Python, JavaScript, Full Stack

Full-time Professor - Computer Science Dept. at ESPE - Universidad de las Fuerzas Armadas

https://www.espe.edu.ec

2023-04-01 - 2024-10-31

- Taught Programming, Databases and Software Engineering within the Computer Science Department.

- Worked on software architecture, relational data modelling and engineering practices applied to real cases.

Stack: Programación, Bases de Datos, Ingeniería de Software, SQL, Python

Adjunct Professor - IT Career at UIDE - Universidad Internacional del Ecuador (Ext. Loja)

https://www.uide.edu.ec/

2022-10-01 - 2022-12-31

- Professor for the Information Technologies career at the Loja campus during the 2022 academic term.
- Planned sessions and course materials in coordination with the rest of the career's teaching staff.

Stack: Tecnologías de la Información, Redes, Hardware

Associate Professor - Computer Assembly & Maintenance Career at Instituto Superior Tecnológico Juan Montalvo

https://istjm.edu.ec/

2020-10-01 - 2022-03-31

- Taught Hardware, Networking and Operating Systems in the Computer Assembly & Maintenance technical career, connecting the course to hardware hacking on OpenWrt and firmware.
- Set up practical labs in networking, OS installation and embedded device configuration with OpenWrt.

Stack: Hardware, Redes, Sistemas Operativos, OpenWrt, Firmware, Kali

Computer Science Teacher at APC - Antonio Peña Celi

https://apc.edu.ec/

2013-09-01 - 2022-12-31

- Taught programming, advanced office tooling and technical support to more than 400 students over 9 consecutive years (2013-2022).
- Guided students through the shift from office tooling to structured programming and classroom hardware support.

Stack: Programación, Ofimática avanzada, Soporte técnico, Hardware, Redes

EDUCATION

Master's in Defensive and Offensive Cybersecurity - Universidad Complutense de Madrid

Master 2026-02-01 - 2027-12-31 **Score:** En curso

Master's in Computer Science and Technologies - Universidad Técnica Particular de Loja

Master 2018-09-01 - 2021-02-28 **Score:** 4.0

Bachelor's in Educational Computing - Universidad Nacional de Loja

Bachelor 2007-09-01 - 2011-02-28 **Score:** 4.0

TECHNICAL SKILLS

Frontend Fundamentals: HTML (Master), CSS (Master), JavaScript (Master)

Frontend Frameworks: TypeScript (Advanced), React (Advanced), Next.js (Advanced), Vue (Intermediate), Svelte (Intermediate), Angular (Intermediate)

Backend: Node.js (Advanced), Python (Advanced), Django (Advanced), FastAPI (Advanced), NestJS (Advanced), SRI / XAdES (Advanced)

Mobile: Flutter (Advanced), React Native (Advanced), Expo SDK 53+ (Advanced)

Native Mobile: Swift (iOS) (Intermediate), Kotlin (Android) (Intermediate)

DevOps: Docker (Advanced), Kubernetes (Intermediate), AWS (Intermediate), Azure (Intermediate), GitHub Actions (Intermediate)

Databases: MySQL (Advanced), MongoDB (Advanced), PostgreSQL (Advanced)

Security: Ethical Hacking (Advanced), Penetration Testing (Advanced), OWASP Top 10 (Advanced), Auditoría de Pentesting (Advanced), Ingeniería Inversa y Explotación (Advanced), Hardware Hacking (OpenWrt) (Advanced), Bash Scripting (Advanced), Linux (Master), Kali Linux (Advanced), Metasploit (Intermediate), Burp Suite (Intermediate), Nmap

(Advanced), Wireshark (Intermediate), SQL Injection (Advanced), XSS/CSRF (Advanced), CTF (Intermediate), Network Security (Advanced), Web Security (Advanced), Cloud Security (Intermediate)

Architecture: Clean Architecture (Advanced), SOLID (Advanced), TDD (Advanced)

Teaching: Evaluación Formativa (Advanced), Gestión Académica (Advanced), Diseño Curricular (ABP / ADDIE) (Master)

Tools: Git (Advanced), NotebookLM Power-User (Master), OpenCode + MCP (Advanced), Quarto (Advanced), Jupyter (Advanced), LaTeX (Advanced)

AI: Machine Learning (Intermediate), TensorFlow (Intermediate), R Language (Intermediate)

FEATURED PROJECTS

- **course-of-cybersecurity** — Complete published cybersecurity course book: 42 hours, 5 units, 40+ challenges, 10+ labs and 7 quizzes. Ships with a full instructor resource pack: teacher guide, student manual, evaluation rubrics, accreditation plan and Docker deployment manual. _Curriculum Design, 42 hours, Challenges, Labs, Docker_ Code
- **cyber-guardians** — AI pedagogical mediator platform that applies the Socratic method without ever revealing the answer. Offers four-level scaffolding (explicit, guided, implicit, withdrawn) grounded in Vygotsky's Zone of Proximal Development, plus a metacognition panel. _TypeScript, Socratic Method, Scaffolding, Vygotsky, Metacognition_ Code
- **desarrollo-software-seguro** — Secure software development material published as open material, and the only repository in this set with a star on GitHub. _JavaScript, Secure Development, Open Educational Resources_ Code
- **Course_of_python** — Own Python course of 11 modules with 70+ practical challenges, published as open material. _JavaScript, Python, 11 modules, 70+ challenges, Open Material_ Code
- **MindLedger** — Multi-tenant clinic and accounting management system with medical-grade encryption. Tauri v2 (Rust) + React + SQLCipher. Clean Architecture, Repository pattern, SQLCipher migrations, interactive sample data, dark theme. _Tauri v2, Rust, React, SQLCipher, Clean Architecture, Multi-Tenant_ Code
- **jarvis-os** — Python service layer. _Python_ Code
- **open-api-facturacion-sri** — REST API for SRI Ecuador electronic invoicing with XAdES-BES signing, XSD schema validation, and electronic receipt emission. _Node.js, TypeScript, XAdES-BES, SRI Ecuador_ Code
- **exploitarium** — Exploitation PoC collection for CVEs _Python, Exploit Development, CVE_ Code
- **cybervault** — Security and audit repository _Python, Security_ Code
- **ctf-evilsec-2026** — Reproducible writeups from the EvilSec CTF (Ekoparty 2026): 15 of 22 challenges solved and 3,550 points, with a script per challenge that returns the flag and an audit against the event scoreboard. Third place in the event. _CTF, Writeups, 15/22 challenges, 3,550 points, 3rd place_ Code
- **cv-diego** — Interactive digital CV _React, Vite, TypeScript, Tailwind CSS_ Code
