Security & Software Consultant | Consultor de Seguridad y Software

PROFESSIONAL SUMMARY

Independent security and software consultant. Authorized audits with a signed letter, own software products, and technical training in cybersecurity. 22 published courses, 134+ certifications, and 3 documented pentest engagements.

MY PRACTICE

Independent security and software practice: authorized application auditing, product development, and technical training. 13 continuous years of teaching across six institutions, 22 published own courses, 134+ active certifications, and 400+ public repositories.

Services

- **FullStack Development** — Production-grade web and mobile applications with solid architecture, tests, and documentation. React, Next.js, Flutter, Node.js, Python, PostgreSQL. Formats: Per project, Hourly, Part-time. Rate: $25-50/hora
- **Security Audit** — Web and mobile application pentesting. OWASP Top 10 vulnerability identification, CVSS-scored reports, and remediation recommendations. Formats: Per project, Monthly retainer. Rate: $500-3000/proyecto
- **Technical Consulting** — Fractional CTO: software architecture, code review, team mentoring, and strategic technical decision-making. Formats: Part-time, Hourly, Retainer. Rate: $20-40/hora
- **Training & Courses** — Custom courses in Python, Ethical Hacking, Cybersecurity, and software development. 500+ students trained at ESPE, UIDE, ABACOM. Formats: Hourly, Per course, Workshop. Rate: $30-60/hora

Own Tools

- **desarrollo-software-seguro** — Secure software development material published as open material, and the only repository in this set with a star on GitHub. — github.com/statick88/desarrollo-software-seguro
- **cyber-guardians** — AI pedagogical mediator platform that applies the Socratic method without ever revealing the answer. Offers four-level scaffolding (explicit, guided, implicit, withdrawn) grounded in Vygotsky's Zone of Proximal Development, plus a metacognition panel. — github.com/statick88/cyber-guardians
- **course-of-cybersecurity** — Complete published cybersecurity course book: 42 hours, 5 units, 40+ challenges, 10+ labs and 7 quizzes. Ships with a full instructor resource pack: teacher guide, student manual, evaluation rubrics, accreditation plan and Docker deployment manual. — github.com/statick88/course-of-cybersecurity
- **MindLedger** — Multi-tenant clinic and accounting management system with medical-grade encryption. Tauri v2 (Rust) + React + SQLCipher. Clean Architecture, Repository pattern, SQLCipher migrations, interactive sample data, dark theme. — github.com/statick88/MindLedger

Own Training

- 22 published courses
- 200+ verified teaching hours
- 92+ students (average 93.4/100)
- 6 institutions taught at

Authorized Security Engagements

- **Oct 2026 — E-commerce with a 3D client (name withheld under a confidentiality agreement)**: Authorized production pentest, with a signed authorization letter and a 2-day window. 109 subdomains inventoried, a matrix of 15 verified CVEs, 6 adversary chains, and a remediation plan
- **Jul 2026 — Web application with scheduling management**: Security test over functional findings, with the client's prior authorization. Findings attached and prioritized with severity and remediation
- **Sep 2025 — Web project (name withheld under a confidentiality agreement)**: Prior authorization letter, with scope and window agreed before execution. Execution within the signed scope, without touching third-party assets

TECHNICAL SKILLS

Backend

- **Python**: Advanced

DevOps

- **Docker**: Advanced

Security

- **Ethical Hacking**: Advanced
- **Penetration Testing**: Advanced
- **OWASP Top 10**: Advanced
- **Auditoría de Pentesting**: Advanced
- **Ingeniería Inversa y Explotación**: Advanced
- **Hardware Hacking (OpenWrt)**: Advanced
- **Nmap**: Advanced
- **Metasploit**: Intermediate
- **Burp Suite**: Intermediate
- **Wireshark**: Intermediate
- **SQL Injection**: Advanced
- **XSS/CSRF**: Advanced
- **Bash Scripting**: Advanced
- **Linux**: Master
- **Kali Linux**: Advanced
- **CTF**: Intermediate
- **Network Security**: Advanced
- **Web Security**: Advanced
- **Cloud Security**: Intermediate

Tools

- **Git**: Advanced
- **OpenCode + MCP**: Advanced

EXPERIENCE

Software Designer and Architect (own project) — Meeting Planner AI System

2026-01-01 Present

- Architected a modular transcription and analysis system with clean architecture, integrating Whisper/MLX for speech-to-text, LLMs (Groq/xAI) for contextual analysis and summarisation, and Docker Compose for reproducible environments.
- Cut 80% of the time spent on manual transcription, processing hours of audiovisual content every week without human intervention.
- Improved educational accessibility with precise, searchable transcripts, on an extensible design that added analysis services without restructuring the core.

Stack: Python, FastAPI, React 19, Zustand, Whisper/MLX, LLM (Groq, xAI), Docker Compose, SDD

Instructor, Facilitator and Curriculum Designer — ABACOM

2021-12-01 Present

- Designed and taught 8 courses on Ethical Hacking, Python, Flutter, MicroPython, Linux servers and secure software, covering 200+ verified teaching hours and 92+ students.

- Achieved a 93.4/100 average evaluation with the 2026 Python cohort, publishing the material as 8 open Quarto books on GitHub Pages.
- Built the instructor pack for every course (teaching guide, student manual, assessment rubrics and accreditation plan) with ABP methodology.

Stack: Ethical Hacking, Python, Flutter, R, Linux, Quarto, ABP, OWASP

Bootcamp Facilitator (Django + React) — Codings Academy

2024-02-01 - 2024-12-31

- Facilitated full-stack web development bootcamps with Django and React, using rubric-based assessment and individual progress tracking for every student.
- Guided teams through the full development cycle (design, implementation, testing and deployment) of their final projects.

Stack: Django, React, Python, JavaScript, Full Stack

Associate Professor - Computer Assembly & Maintenance Career — Instituto Superior Tecnológico Juan Montalvo

2020-10-01 - 2022-03-31

- Taught Hardware, Networking and Operating Systems in the Computer Assembly & Maintenance technical career, connecting the course to hardware hacking on OpenWrt and firmware.
- Set up practical labs in networking, OS installation and embedded device configuration with OpenWrt.

Stack: Hardware, Redes, Sistemas Operativos, OpenWrt, Firmware, Kali
